

## Devon Diabetic Eye Screening Programme

**Diabetes is the second largest cause of preventable blindness in adults, so don't lose sight of your screening appointment**

From 1 April 2019, the Devon Diabetic Eye Screening Programme will be provided by Health Intelligence. Patients who use the Diabetic Eye Screening Service will be contacted to invite them to their next screening appointment.

**If you use this service, you do not need to take any specific actions**

Your screening records will be securely transferred to Health Intelligence. This is supported by NHS England South West to ensure that your individual data and screening history is held securely and only accessible by the healthcare professionals directly involved in your care.

If you have any questions call **01392 241000** or check out the new website and our privacy notice
